Head Coach: Trent Sanderson (New Orleans, '95) - 1st season at Maryland

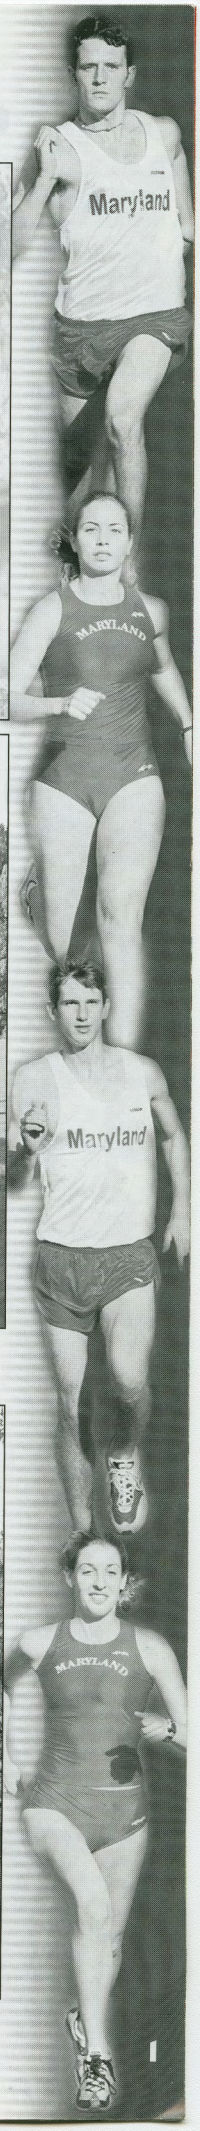
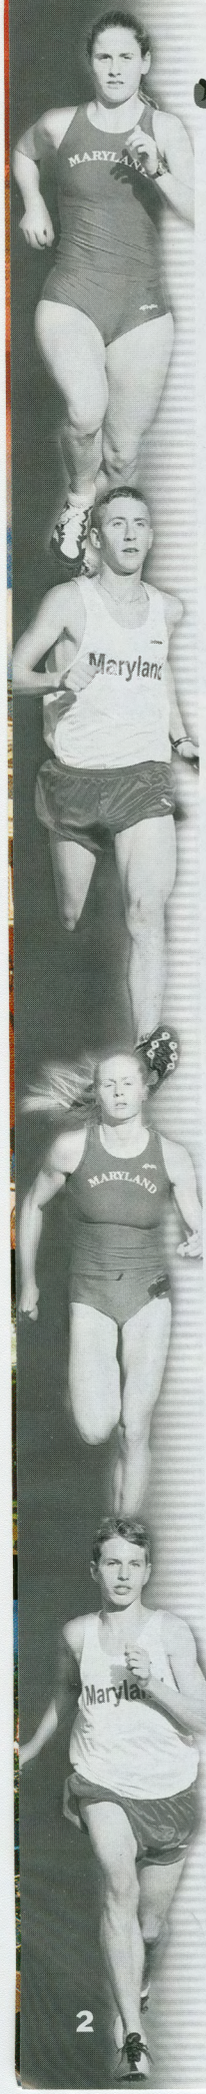
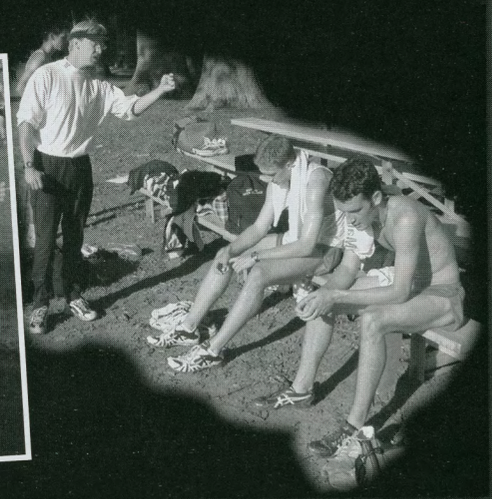
Maryland's beautiful University Golf Course is home to the Terps' cross country team.

The course has a sensational setting and is located adjacent to the university campus.





This Is Maryland Cross Country



Maryland Cross Country Mission Statement

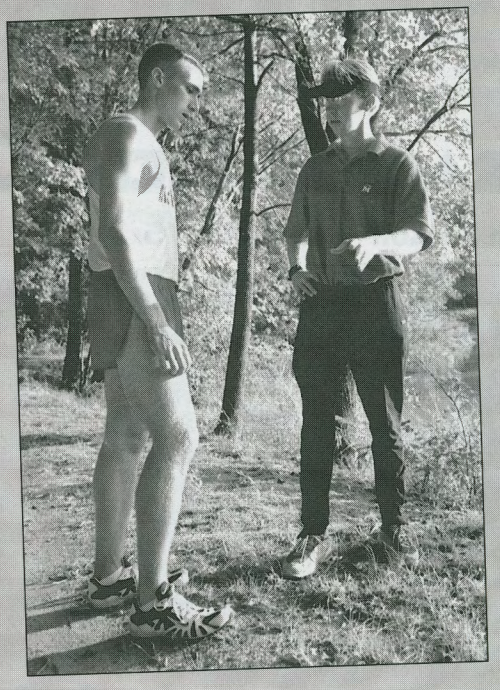
On the cross country course, we expect to become a national top-20 team. Since the Atlantic Coast Conference is one of the strongest, if not the strongest, distance conferences in the country, we believe that if we move up with a sense of urgency within the conference we can become a nationally recognized program in a matter of one to three years. We will embrace the concept of family through team bonding and working toward a common goal.

In the classroom, our expectations are to have athletes receive a degree from one of the most highly recognized academic programs in the country. The University's academic successes are across the board and Maryland has emerged as a true powerhouse in business, computer science, earth science, engineering, education and journalism. *U.S. News & World Report* ranked Maryland 24th nationally among all public universities in its latest poll. The Robert H. Smith School of Business has been ranked among the top business schools in the world by the *Wall Street Journal* and the *Financial Times* of London. Every department in the College of Education has programs ranked in *the U.S. News & World Report* top-25 and 69 majors within the school are ranked in the top-25 or better on the national scene.

Experience is the best teacher. The more times you do something, the more experienced you become; and the more experienced you are, the better off you are.

That's what the experts say, and it does hold true. A person who has been running for five years knows more about himself or herself and their own capabilities than a person who's been running a short time.

Still, it's possible to know something so well that you don't know it at all. There's a point when you've been doing it so long that you become blinded to actually learning, thinking that you know it all. You stop letting yourself grow. That's why it's good to always remain humble and accept some naiveté about running. I came to this conclusion over the last couple of years in my coaching career. With national champion athletes, national record holders, state champions and Olympic medallists, improvement is observed most when some sort of innocence is maintained.



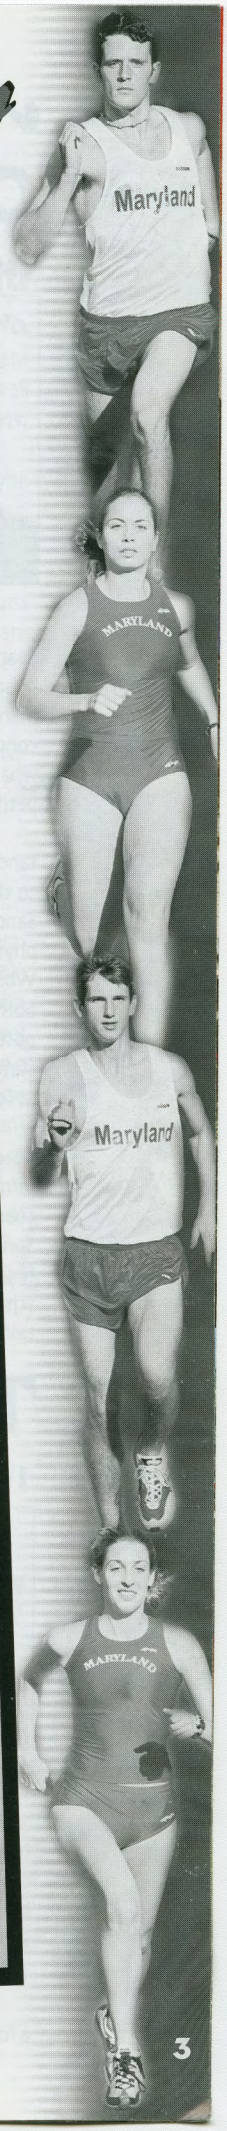
An important aspect of innocence is a childlike enthusiasm and energy. It still seems fresh. You don't know it all nor do you pretend to. You're still learning. In fact, you're jazzed about how much there is to learn.

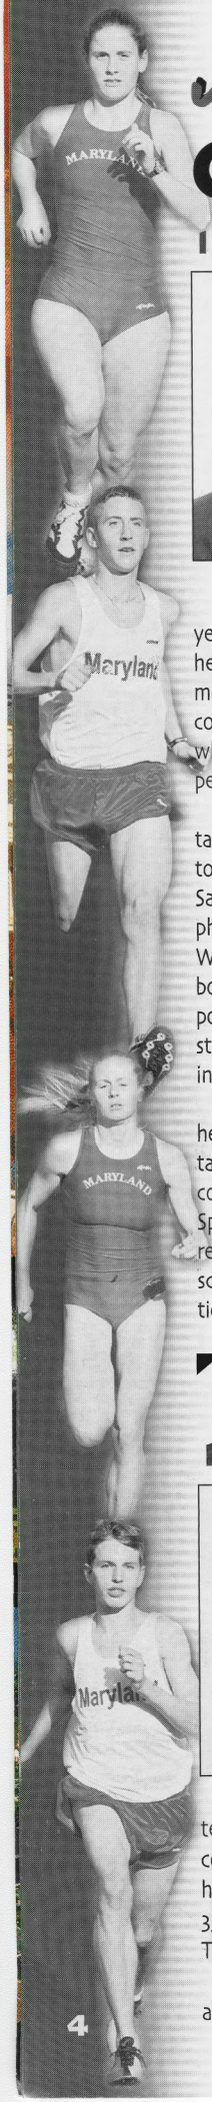
Experience is a great teacher. But innocence teaches too. When you're new to something, you are drawn to the feeling of excitement. Never become so knowledgeable of running — or anything else — that you outgrow its joy, its pleasures, its innocent dreams. You cannot forget the dreams that got you started.

Sincerely,

Trent Sanderson

Trent Sanderson
Head Coach, Maryland Cross Country





Maryland Terrapins Cross Country

Cross Country Coach Trent Sanderson

1st Season • New Orleans '95

The 2001 season marks the beginning of a new era for the University of Maryland men's and women's cross country teams. Head coach Trent Sanderson took the reigns of the program following the retirement of 13-year coach Dan Rincon. Upon Sanderson's hiring, head track and field coach Bill Goodman commented that, "Trent is energetic, smart and well connected, and he has been in the ACC and knows what it takes to run at this very high level [of competition]."

Sanderson brings more than a decade of distance running and six years of coaching experience to the Terrapins' cross country program. In 1995, Sanderson earned a bachelor's degree in exercise physiology from the University of New Orleans. While at New Orleans, Sanderson participated on both the cross country and track teams, and also posted the second-fastest 10,000-meter time in the state of Louisiana and merited All-Sun Belt honors in 1994.

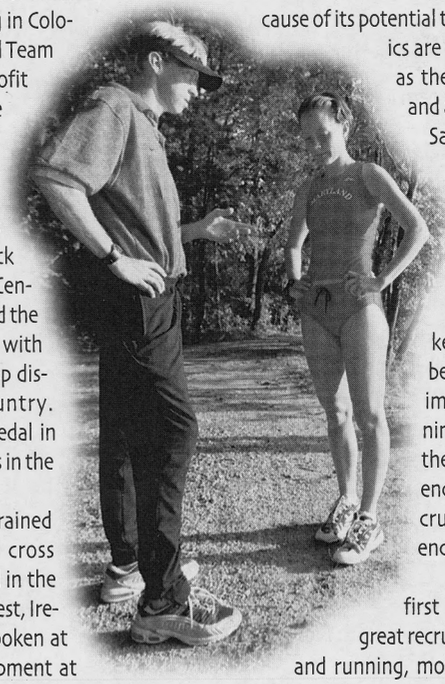
From 1997 to 2000, Sanderson served as the head cross country coach at Colorado Rocky Mountain High School and middle and long distance coach at Glenwood Springs High. At Glenwood Springs, Sanderson coached the team to the state regional championships. While coaching at the high school level, Sanderson helped develop one national record-holder, two national champions, four national titles, five regional records, nine prep All-Americans and numerous student-athletes that have gone on to the junior national cross country team. While working in Colorado Springs he also conceived Team Elite USA, a national non-profit program dedicated to the mentoring and development of amateur athletes.

Sanderson trained future and current Olympians during stays at the U.S. Track and Field Olympic Training Center in Colorado Springs. He had the opportunity to work closely with Deena Drossin, one of the top distance runners in the country. Drossin is a hopeful for a medal in the 5,000- and 10,000-meters in the 2004 Olympic Games.

In 1999, Sanderson trained half of the junior national cross country team that competed in the World Championships in Belfest, Ireland. Additionally, he has spoken at programs on mental development at high school coaches' clinics throughout the country. This summer, Sanderson plans to continue his elite cross country camp in Colorado.

"This will allow some sort of another home base out in Colorado for Maryland distance running," said Sanderson.

Most recently, Sanderson worked with the track and field program at Florida State University. One of the athletes Sanderson coached at Florida State went on to finish third at the 2001 national indoor meet and set a national record in the 400 meters in Zimbabwe.



Sanderson is optimistic about the potential progress of the Maryland cross country program.

"I chose The University of Maryland because of its potential to expand. The academics are on an elite level as well as the facilities, fan support and academic support," said Sanderson. "Being that I have only been accustomed to this level, it seems inevitable that cross country will also reach that level."

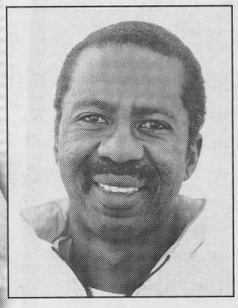
Recruiting is a key area that Sanderson believes the program can improve in. Distance running is very competitive in the Atlantic Coast Conference (ACC), making top recruitment key to conference and national success.

"Next year will be my first [full] year, and with a great recruiting class we will be off and running, moving closer to the ACC title," said Sanderson.

Improvement is already apparent in both the men's and women's teams, with numerous runners lowering times from the 2000 season. "The athletes we have this year have been surpassing their top times from last season," said Sanderson. "Each athlete has improved every meet. Additionally, they have adjusted to a very tough regiment and a different philosophy."

Track & Field Coach Bill Goodman

14th Season • Maryland '75



As both a runner and a coach, Bill Goodman has spent 27 years as an integral part of the Maryland track and field program.

He replaced Stan Pitts by taking over the coaching reigns of both teams in 1998. During his tenure as an assistant coach (1976-83) and as head coach, Goodman has had 14 All-Americans, 35 All-ACC performers and 33 ACC champions, most recently in 2001 with Tracy Ojeniyi winning the heptathalon.

As a student-athlete at Maryland, Goodman, a four-year letterwinner, excelled both on and off the track. In 1975 he was the Intercollegiate Association of Amateur Athletes of America (IC4A) triple jump champion. He also qualified for the NCAA Championships in 1973, '74, and '75.

Off the track, the York, Pa. native enjoyed academic and social prominence during his time at Maryland. He was the vice president of Omicron Delta Kappa, an honorary fraternity representing outstanding academic leadership achievement, from 1973-75. In 1975, he received the Atlantic Coast Conference award for excellence in scholarship and athletics. Goodman was also an honorary inductee in the Golden Key Honor Society.

After graduating from Maryland in 1975, Goodman stayed at the university and became an assistant coach under Frank Costello. During his stint, he had the opportunity to coach All-Americans Bob Calhoun (long jump) and Dennis Ivory (triple jump), as well as USA Track and Field qualifier and school long jump record-holder Tamela Penny.

Under his tutelage, indoor triple jumper Marchelle Payne was a four-time All-American and is considered to be one of America's all-time best in her events. Goodman's last All-American came in 1999, when he coached Candyce DeLoatch in the 400.

In 1983, Goodman took the head-coaching job at nearby Eleanor Roosevelt High School. There he guided the track program to almost immediate success. In 1984, he led the men's team to an indoor state championship. In 1986 he led the women's cross country team to the state championship.

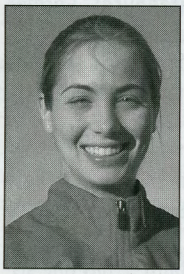
Goodman and his wife, Helen, reside in Frederick, Md., with their two daughters, Shanie and Natalie, as well their dog, Hershey, and cat, Angel.

Maryland Terrapins Cross Country

Women's Team Profiles

Monique Berry

Sr. • Andover, Conn. • RHAM



On Berry: One of the Terps' top returners who has been a team leader since 1998 ... three-time varsity letter winner.

Personal: Born Oct. 3, 1980 ... daughter of Marita and Kevin Berry ... has one brother, Eric ... was treasurer of the National Honor Society ... a member of Delta Gamma sorority at Maryland.

2000 Best Time: 20:48.8
2001 Best Time: 19:51.28 on Oct. 13 at the Maryland Invitational.

Marjorie Bollinger

Sr. • Timonium, Md. • Dulaney

On Bollinger: Entered her senior campaign as one of Maryland's top returnees ... three-time varsity letter winner.

Personal: Marjorie Aston Bollinger ... born April 14, 1980 ... daughter of Christine and J. Edward Bollinger ... has one brother, Patrick, and two sisters, Sandra and Natalie ... enjoys scuba diving, running and community service ... member of the Alpha Lambda Delta Honor Fraternity ... majoring in marine biology.

2001 Best Time: 20:06.0 at the ACC Preview at Clemson on Sept. 29.

Karen Claney

So. • Coatesville, Pa. • Coatesville

On Claney: Redshirted her freshman year ... competed in all of the Terps' 2001 meets.

Personal: Karen Lynn Claney ... born April 4, 1982 ... daughter of Jayne Scamuffa and Doug Claney ... enjoys yoga, scuba diving and cooking ... majoring in sociology.

2001 Best Time: 20:01.67 at the Maryland Invitational on Oct. 13.

Lorna Dorland

Fr. • Rockland, Maine. • Medomax Valley

On Dorland: Talented runner who entered the lineup late in the 2001 season.

Personal: Lorna Elaine Dorland ... born August 19, 1972 ... daughter of Marilyn Dever and Roger Dever, Jr. ... married to Bryan Dorland ... has three children, Britain, Natalya and Ciaran ... enjoys cooking and gardening ... majoring in romance languages.

2001 Best Time: 19:49.71 at the Maryland Invitational on Oct. 13.

Courtney Fiorovanti

Fr. • Toms River, N.J. • Toms River No.

On Fiorovanti: Consistent runner who competed in all of Maryland's 2001 meets.

Personal: Courtney Lynn Fiorovanti ... born June 25, 1982 ... daughter of Diana and Nicholas Fiorovanti ... brother, Matthew, runs track at Cornell ... has another brother, Brett ... enjoys running ... majoring in elementary education.

2001 Best Time: 20:22.29 at the Maryland Invitational on Oct. 13.

Kristin Lubas

Jr. • York, Pa. • Central York

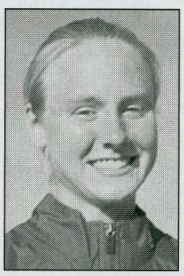
On Lubas: Maryland's fastest runner in the 2001 season, posting the team's best times at almost every meet ... should continue to be a strong leader for the Terps during her senior campaign.

Personal: Born Jan. 2, 1981 ... daughter of Mary and James Lubas ... has one brother, James, and one sister, Meg ... senior class president in high school ... member of the National Honor Society.

2000 Best Time: 20:45.67
2001 Best Time: 19:45.06 at the Maryland Invitational on Oct. 13.

Kimberly Smith

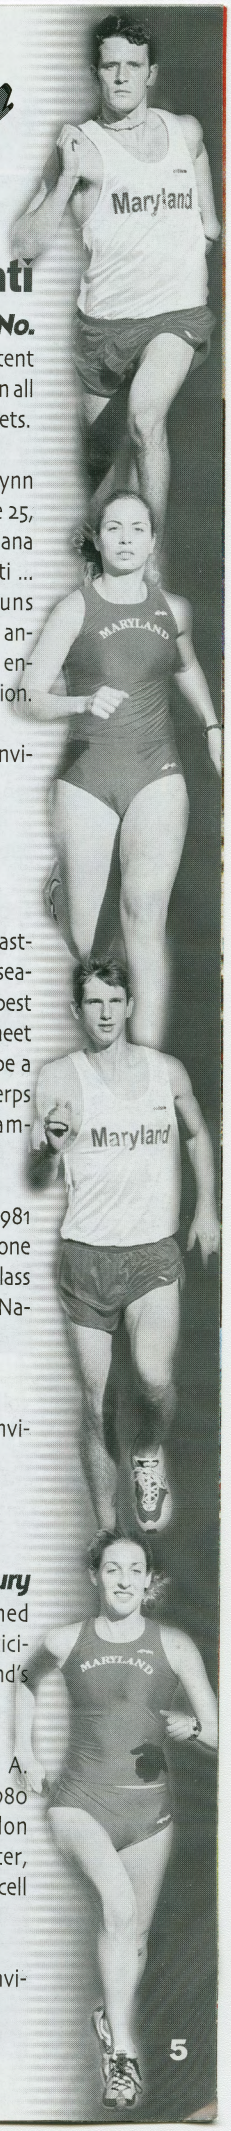
So. • Glastonbury, Conn. • Glastonbury



On Smith: Determined competitor who participated in all of Maryland's 2001 meets.

Personal: Kimberly A. Smith ... born Dec. 5, 1980 ... daughter of Gordon Smith ... has one sister, Jennifer ... majoring in cell biology/molecular genetics.

2001 Best Time: 19:56.45 at the Maryland Invitational on Oct. 13.

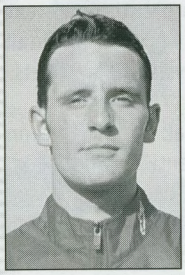


Maryland Terrapins Cross Country

Men's Team Profiles

Matt Adami

Fr. • Mount Airy, Md. • South Carroll



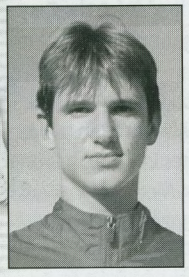
On Adami: Member of strong freshman class who will be a key leader in the future ... became the first freshman in the 2001 season to finish a race as the Terps' top runner, at the ACC Championships in Clemson, S.C. ... one of three runners to represent the Terps at the NCAA Mid-Atlantic regional meet.

Personal: Matthew Ryan Adami ... born April 28, 1983 ... son of Helene Adami and Edmund Adami ... has one brother, Michael ... majoring in computer science.

2001 Best Time: 26:33.5 at the ACC Championships on Oct. 27.

Adam Ambrus

Fr. • Medford, N.J. • Shawnee



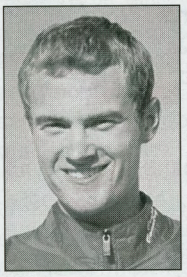
On Ambrus: Consistent member of the freshman class who competed in every 2001 meet.

Personal: Adam Peter Ambrus ... born Sept. 5, 1982 ... son of Jill and Peter Ambrus ... has one brother, Neil ... enjoys racquetbal, volleyball, gold and the stock market ... chose Maryland over St. Joe's, Rutgers, Iona and TCNJ ... majoring in letters and sciences.

2001 Best Time: 26:45.0 at the ACC Preview on Sept. 29.

Francis Ciganek

So. • Worton, Md. • Kent County



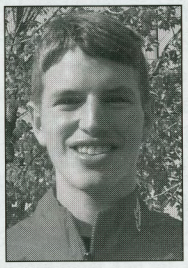
On Ciganek: One of the top returning competitors for the Terps ... improved on times from 2000 in three meets during the 2001 season ... one of three representatives for the Terps at the NCAA Mid-Atlantic regional meet.

Personal: Francis Eric Ciganek ... born Feb. 15, 1982 ... son of Marie and Eric Ciganek ... has two brothers, Joe and James ... enjoys surfing and traveling ... chose Maryland over Dickinson, Columbia, Lehigh and UMBC ... majoring in international business.

2001 Best Time: 25:57.12 at the Paul Short Invitational at Lehigh University on Saturday, Oct. 6

Michael Fleg

Fr. • Clarksville, Md. • River Hill



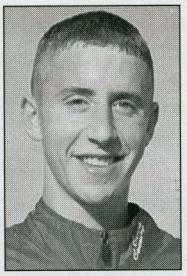
On Fleg: Determined freshman who led high school team to two state championships ... competed in every 2001 meet.

Personal: Michael Louis Fleg ... born Oct. 25, 1983 ... son of Rosemarie and Jerome Fleg ... has three brothers, Anthony, Jerome and Stephen ... likes to play all sports ... favorite athlete is Cal Ripken of the Baltimore Orioles ... majoring in government and politics, and criminology.

2001 Best Time: 26:49.69 at the Paul Short Invitational on Oct. 6.

Eric Marenburg

Fr. • Peabody, Maine • Peabody



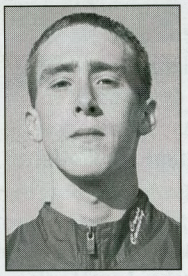
On Marenburg: Former high school team captain who competed in four of the Terps' first five meets in 2001.

Personal: Eric Matthew Marenburg ... born July 31, 1983 ... son of Ann and Eric Marenburg ... has one sister, Rachel ... hobbies include running, basketball and watching sports ... majoring in business.

2001 Best Time: 27:24.22 at the Paul Short Invitational on Oct. 6.

Michael Prada

So. • Fulton, Md. • River Hill



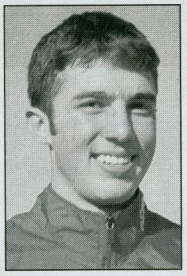
On Prada: Terps leading returner after completing the 2000 season as Maryland's leading competitor in almost every meet ... was the fastest runner for Maryland in the first three meets of the 2001 season ... one of three representatives for the Terps at the NCAA Mid- Atlantic regional meet.

Personal: Michael Gregory Prada ... born Jan. 7, 1981 ... son of Sharon and Gary Prada ... has one sister, Michelle ... member of the Student Athlete Advisory Council ... chose Maryland over UMBC and American ... majoring in biology.

2001 Best Time: 25:47.53 at the Paul Short Invitational on Oct. 6

Michael Tantino

Fr. • North Wales, Pa. • North Penn



On Tantino: Talented freshman who competed in four of the Terps' first five meets in 2001.

Personal: Michael Andrew Tantino ... born June 19, 1982 ... son of Linda and Dan Tantino ... has two brothers, Dan and Scott ... chose Maryland over Bucknell and University of Pennsylvania ... majoring in engineering.

2001 Best Time: 28:31.7 at the ACC Championships at Clemson on Oct. 27.

University of Maryland

The Campus

The University of Maryland, College Park is the most comprehensive institution of higher education, research and service in the state. The university offers 100 undergraduate majors, 88 master's programs and 69 doctoral programs in 13 colleges and schools.

The university is one of only 30 public research universities that are members of the prestigious 58-member Association of American Universities. It is classified as a Research-I university by the Carnegie Foundation by virtue of the range of its baccalaureate programs, the amount of federal support received and the number of doctoral degrees awarded each year, sharing that honor with the top research universities in the country.

Among the public universities in the Association of American Universities, Maryland ranks among the top in percentage of African-American undergraduate students. In addition, the university has the largest number of African-Americans and other minority members among its peers.

Flagship Status

In 1988, the University of Maryland, College Park was designated as the flagship institution for the University System of Maryland. As well as pursuing a serious research mission and continuing its high level of service to the state, the university rededicated itself to providing the highest quality graduate and undergraduate education. Increased undergraduate opportunities for research and individual study; the development of the College Park Scholars Program and the expansion of the University Honors Program; the genesis of Honors Humanities and Gemstone; the creation of CORE, the general education program; and the establishment of the Center for Teaching Excellence all affirmed the legislature's designation of flagship.

Libraries

Seven libraries make up the University of Maryland library system: McKeldin (main) Library, Architecture Library, Art Library, Engineering and Physical Sciences Library, Hornbake Library, Performing Arts Library, White Memorial (Chemistry) Library.

These libraries constitute the largest university research library institution in the Washington metropolitan area, providing vital resources to researchers, visiting scholars, and businesses throughout the region. The libraries' holdings include more than 2.5 million volumes, 24,000 subscriptions to periodicals and nearly 5 million items available in microfilm format.

Research

Opportunities for conducting research abound at the University of Maryland, College Park, and in the surrounding area, both for faculty to advance their own expertise and bring their insights into the classroom, and for students to begin their exploration of their special interests with practical experience. On campus, special facilities and a number of organized research centers, bureaus, and institutes promote the acquisition and analysis of new knowledge in the arts, sciences and applied fields.

The university's enviable location — just nine miles from downtown Washington, D.C., and approximately 30 miles from both Baltimore and Annapolis — enhances the research of its faculty and students by providing access to some of the finest libraries and research centers in the country.

Service

Programs of public service are central to the overall mission of the university. The philosophy is reflected in the wide array of programs and initiatives that benefit the state's business, agriculture and education communities.

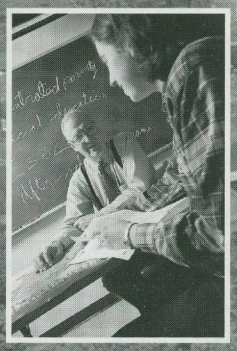
With more than 90 high technology firms in the three-county area of Montgomery, Prince George's and Frederick counties, the university has found abundant opportunity to extend its business and technology outreach programs to the region. Many of these programs are part of the Engineering Research Center, which operates the Technology Advancement Program and the Maryland Industrial Partnerships, programs designed to provide Maryland entrepreneurs and small businesses with research facilities, technical assistance, administrative support, and access to technology that will advance their economic base.

The Institute for Systems Research has formed partnerships with major corporations, including Lockheed Martin, Westinghouse, BF Goodrich, Hughes Aircraft and Dupont to apply advanced systems research to solving industry problems in the fields of communications, manufacturing, controls and robotics.

The University of Maryland features a diversity of cultural and recreational activities. Four art galleries, more than 200 annual musical performances and countless dance and theater productions, expose audiences to the broadest range of programs in the arts. Additionally intercollegiate, club and intramural sports provide students of all levels an opportunity to participate as spectators or athletes.

A Wired World

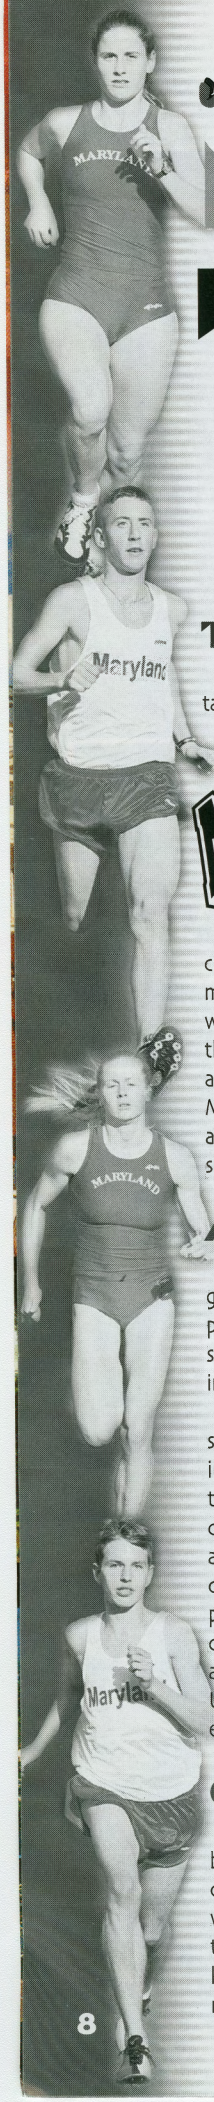
Students at the University of Maryland are part of an academic community that enjoys free access to networked computer resources and facilities that are among the best in the country. Free computer accounts enable users to store class work on a networked server, download classroom support materials and other electronic information from campus networked resources such as inforM, or send electronic mail to faculty, fellow students or friends at other universities.



Maryland Terrapins Cross Country

Maryland TERRAPINS

Among The Nation's Best



This is Maryland Athletics

At the University of Maryland, winning is not taken lightly. Like the rich history of all its sports programs, championships are a tradition.

Since the 1950s, Maryland has established itself as one of the most successful athletic programs in the nation. This type of success is no accident; it has been built year-by-year on the achievements of outstanding young men and women who were given the opportunity to excel both on and off the field of play. The victories, the championships and the national acclaim are all ingredients of the Maryland athletics program. Student-athletes who attend Maryland are part of a program and a university which thrives on tradition and excellence.

Academic Excellence

The University of Maryland considers intercollegiate athletics an integral part of the collegiate experience. Its existence provides an opportunity for students, faculty and alumni to share in the life of intercollegiate athletics.

The Department of Intercollegiate Athletics strives to achieve the same standards of excellence in its athletic program as exist within the university's teaching, research and public service programs. The department embraces the concept that the student-athlete is first and foremost a student, possessing academic abilities, personal interests and ambitions comparable to those of the other members of the student body. Since 1983, 88 percent of freshmen scholarship athletes who completed their eligibility at the University of Maryland earned their degrees.

Goals

The great thing about being a Terrapin is the commitment to hard work and dedication. At the University of Maryland, the athletics department is dedicated to supporting a well-balanced Division I program. Athletics director Deborah A. Yow and her dedicated coaches, administrators and staff have re-engineered the department into a responsive and financially sound model — with a clear vision and a determined drive toward national prominence.

Athletic Success

National championships, conference championships, national rankings and postseason play are all a part of the University of Maryland experience. The University of Maryland has established itself as one of the nation's elite athletics programs. The Terrapins have won 16 national championships, including a record seven consecutive by the women's lacrosse team.

Competition

Wearing the Maryland uniform means playing in front of some of the loudest and most supportive fans in the nation. It means playing against the best teams in the country, in the most prestigious conference in the country, the ACC. It means wearing the school colors with pride. It means doing your best in athletics and academics. It is a unique and special feeling being a Terrapin.

Athletes in the Community

From the media spotlight to the community spotlight, Terrapin student-athletes strengthen the ties of the local community by serving as role models. Community service is a key part of the Terrapins' agenda. Student-athletes support many community programs which help to enrich the lives of Maryland youth while teaching the importance of studying hard and saying "no" to drugs and alcohol.

Representatives from the University of Maryland athletics department speak to participants and use their image and the appeal of sports to encourage Maryland children to stay in school, improve their reading and writing skills, and to receive their high school diplomas.
